Amy,

When the revision is made, can we only submit this one page for 010 with an original signature?

00012702

The average value will also be put in the max value spot.

Good morning Jeff,

Upon review of the revised DMR, it appears that a numeric value for Parameter 001 Flow Quantity or Loading Maximum was not provided. Please provide a hardcopy revision that includes this value. I have included the DMR page as an attachment to this email. Please let me know if you have any questions.

Regards,

Amy

Good afternoon Mr. Marcell,

Upon review of the DMR for monitoring period January 1, 2016-January 31, 2016 it appears that the units, frequency of analysis, and sample type for Outfalls 001, 003, 004, 007, 008, 009, 010, 201, 202, 502 were not completed. Please provide a hardcopy revision to our office. Also, for Outfall 010, please include the monitoring period and correct those values reported in the *Quality or Concentration Average* instead of the *Quality or Concentration Minimum* (Parameters 004, 090, 137, 145, etc). Please let me know if you have any questions.
